

**Floor Care Technician Certification**  
**March 16, 17, 18**                      **Orlando, FL**

**Purpose:** This course provides the latest technical and product information on the proper procedures, chemicals, and equipment needed to identify, clean, maintain, and restore all common types of floor covering materials. Surfaces covered include wood, laminate, stone, ceramic, terrazzo, marble, granite, concrete, epoxy, VAT and VCT tile, and sheet goods. Discussions address common and specialty floor coverings used in commercial, educational, health care, food service, industrial, and residential properties, as well as unique surfaces found in computer rooms, clean rooms, and laboratories. The course prepares attendees to take the IICRC FCT certification exam on day two and is a prerequisite for all IICRC hard surface flooring specialty courses and inspection certification categories.

**Audience:** Front-line Supervisors, Custodial Staff
